Design & Construction:

Pre-curved, form fitting glove body has wrist snuggler and is made of an “air-textured,” high-tenacity Cordura nylon. Kevlar reinforced palm & finger reinforcements are at all the high wear stress points. Hidden cord carabineer loop beneath ribbed donning pull. Light attachment feature on back of glove above knuckles. Glove offers 270° of shirred elastic circumferentially at wrist crease and elastic snuggler to repel debris. Ribbed Rubber donning pull at underside of wrist closure.
