<b>Sizes:</b>	XXS, XS, S, M, L, XL

### **Design & Constructions**

The glove shall be a Gunn cut pattern with wing thumb construction. A completely sewn, one-piece liner is permanently affixed to the glove shell in the fingertips and wrist areas. This prevents any lining pullout and creates a uniform inside lining even after repeated use in fire fighting conditions. The glove extends 2" above the wrist crease and has a shirred elastic snuggler at the wrist to create a better fit.
